Tips before getting started with an e-Application

Tips before getting started

- Ensure that your Foresters appointment and state license are **valid** and **current** for the state of residence of the Owner
 - If your contract is Pending or you don't have the correct or current state license on file with Foresters, please contact Foresters Contracting to update your file
 - *You must be appointed with the applicable state of solicitation by Foresters*
 - *If you are not licensed and appointed in Foresters database to sell in the state of residence of the Owner, you will not be able to complete and submit a Foresters Live Well Plus e-Application*
- Before starting an e-Application, review the prescreen questions, found in the Foresters Live Well Plus Producer playbook, to see if you should move forward with an application

Tips before getting started

- Underwriting:
 - For the primary proposed insured, the total initial premium payment for coverage applied for cannot exceed 40% of the primary insured's total annual income. An example would be reporting an income of \$175,000; the total initial premium cannot exceed $\$175,000 \times 40\% = \$70,000$
 - Total premium includes the annual premium for base coverage plus all applicable riders except for the Single Premium Paid-up Additions Rider
 - Total income includes salary, bonus, rental income, alimony and any other supplemental income. **This amount would be entered under the *What was your income in the last 12 months question within the Lifestyle screen***

Tips before getting started

- If the proposed insured currently has a pending application or was declined, rated or modified for life, health, disability or critical illness insurance with another life insurance company or Foresters, they will not be eligible for Foresters Live Well Plus
- For the additional insured rider, there is no premium to income restriction. The additional insured is subject to the maximum coverage amount rules based on income if employed and ½ household income if they are not currently employed
- Full-time college students are limited to a \$500,000 total coverage amount with Foresters Live Well Plus

Tips before getting started

- If a Standard or rated case with a base face amount less than \$50,000 is applied for but is approved Preferred Plus or Preferred, the base face amount will be automatically increased to \$50,000. *Once approved at Preferred Plus or Preferred, the rating cannot be changed to Standard to qualify for limits below \$50,000*
 - It is possible to make adjustments to reduce the overall premium if the base face amount is higher than \$50,000 by using the Edit Solve option, which may require using a new solve or adjusting values in the current solve
 - Available options that may help reduce the cost:
 - Decrease or remove the Term Rider Face Amount
 - Decrease or remove the PUAR allocated premiums

Pro Tip: If your client does not want the higher required face amount for Preferred Plus or Preferred, do not proceed to the payment information screen and consider another Foresters product.

Tips before getting started

- Underwriting:
 - If you have started an application and before all signers have completed the signature process, if the age (age nearest) of one or more of the parties applying for life insurance coverage has increased, it means that the current application process can no longer be completed. To be considered, you must start a new application, which can occur immediately
 - Please note that children cannot be used as surrogates for their parents that are not insurable
 - Take time to get familiar with Foresters Live Well Plus Underwriting Guide

Tips before getting started

- Not eligible applications:
 - If an applicant receives an ineligible decision **prior to signing the 3rd party search consent form**, the applicant cannot start another application for Foresters Live Well Plus for a period of 365 days. If the applicant attempts another application within this time frame, they will be presented with the following message:
 - We're sorry, our records show your customer was notified that they were ineligible for this product. The carrier will not accept a new application until one year has passed since the date of the previous application. They should not reapply until: DD/MM/YYYY
 - If an applicant receives an ineligible or rated decision **after signing the 3rd party search consent form**, they are not eligible to apply for Foresters Live Well Plus at any time in the future but may be eligible to apply at any time for a fully underwritten Foresters product

Tips before getting started

- Once the **Illustration/Application** button has been selected, you will have 15-calendar days to complete all required interviews. Access expires at the same time of day on the 15th calendar day
- Once the application receives an approved decision a new 15-calendar day window starts to allow time to complete the remaining steps such as payment details, signatures, and producer verification/validation
- In either scenario above, if you surpass the 15-calendar day window, the application will be considered "Not Proceeded With"

Pro Tip: Every screen within the application has a 30-minute timeout window due to inactivity.

Tips before getting started

- Incomplete e-Applications: For incomplete e-Applications where underwriting is complete for at least one insured, a new application for that insured cannot be submitted for 15-calendar days
 - If a new application for that insured is attempted in that timeframe, they will be invited to continue with their old application with the existing decision applied and no answers to the medical questions can be changed at this point

Tips before getting started

- When completing an e-Application, do not use the actual **Back** browser button as that may end your application session depending on the browser used. Instead, use the **Back** button found at the bottom of your session screen

For producer use only. Not to be presented or displayed to the customer or to the public. This is a summary only. The dividends, interest rates, benefits and values shown are neither guaranteed nor estimated for the future except for those elements clearly labeled as guaranteed. The guaranteed and non-guaranteed benefits and values shown are rounded to the nearest dollar, for display purposes only, therefore the actual amounts could be up to fifty cents higher or lower. This illustration assumes that the illustrated non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur as the assumptions on which they are based are subject to change by Foresters Financial based upon a number of factors which may include, but is not limited to, claims, investment earnings, expenses and the overall economic environment. The actual results may be more or less favorable and are expected to vary from those shown.

The Accelerated Death Benefit Rider (ADB) provides an option to accelerate a portion of the eligible death benefit and receive a payment. The payment, due to diagnosis of an eligible illness, may be less than the acceleration amount which may be subject to a fee, an actuarial discount amount and other applicable deductions. Payment will decrease certificate values and benefits and may affect eligibility for public assistance programs. Receipt of an accelerated death benefit payment under the rider is intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code (IRC). Specific situations may result in a taxable event.

Chronic illness is defined as being unable to perform, without substantial assistance from another person, at least two of the six activities of daily living for a period of at least 90 days due to a loss of functional capacity, or as requiring substantial supervision by another person to protect the insured from threats to health and safety due to the insured's severe cognitive impairment. Critical illness includes one or more life-threatening illnesses or conditions as defined in the ADB. Terminal illness is a non-correctable illness or physical condition which is reasonably expected to result in death within 12 months of diagnosis.

Designate a Charity

- Here, the proposed owner can designate an eligible charitable organization by selecting a listed charity or inputting a specific charity that will be searched against a list of registered charities
 - The Charity Benefit provision is a contractual provision automatically included, at no additional premium. When a claim is paid to the beneficiaries, Foresters will pay an additional 1% (up to a maximum of \$100,000) of the face amount to a designated eligible charitable organization in the name of the insured's life¹

Designate a Charity

The life insurance product applied for will, if issued, include a Charity Benefit. The owner can designate an eligible beneficiary for that benefit now or at any time prior to the insured's death. If an eligible beneficiary is not designated prior to the insured's death, no Charity Benefit will be paid. Eligible beneficiary means a charitable organization accredited as tax exempt under section 501(c)(3) of the Internal Revenue Code and eligible to receive a charitable contribution as defined in section 170(c) of that code, or any successor provision(s) thereto.

For producer use only. Not to be presented or disclosed to the customer or to the public. This is a summary only. The dividends, interest rates, benefits and values shown are neither guaranteed nor estimated for the future except for those elements clearly labeled as guaranteed. The guaranteed and non-guaranteed benefits and values shown are rounded to the nearest dollar for display purposes only. Therefore the actual amounts could be 10% greater, higher or lower. This illustration assumes that the Illustration non-guaranteed elements will continue unchanged for all years shown. This is not likely to occur, as the assumptions on which they are based are subject to change by Foresters Financial based upon a number of factors which may include, but is not limited to, claims, investment earnings, expenses and the overall economic environment. The actual results may be more or less favorable and are expected to vary from those shown.

The Accelerated Death Benefit Rider (ADB) provides an option to accelerate a portion of the eligible death benefit and receive a payment. The payment, due to disposition of an eligible illness, may be less than the acceleration amount which may be subject to a fee, an actuarial discount amount and other applicable deductions. Payment will decrease certificate values and benefits and may affect eligibility for public assistance programs. Receipt of an accelerated death benefit payment under the rider is intended to qualify for favorable tax treatment under section 101(g) of the Internal Revenue Code (IRC). Specific situations may result in a taxable event.

Chronic illness is defined as being unable to perform, without substantial assistance from another person, at least two of the six activities of daily living for a period of at least 90 days, due to a loss of functional capacity, or as requiring substantial supervision by another person to protect the insured from threats to health and safety due to the insured's severe cognitive impairment. Critical illness includes one or more life-threatening illnesses or conditions as defined in the ADB. Terminal illness is a non-curable illness or physical condition which is reasonably expected to result in death within 12 months of diagnosis.

 - The accuracy of payment information is important! You will have six attempts to validate the payer's name, routing transit number, account number and social security number
 - If an attempt fails, be sure to verify the payer's information and that it is being entered correctly
 - After six attempts, you will get an NPW-Payment Failure and a new application would be required. One calendar day will be required before proceeding with a new application
