Plan today so your family doesn't have to in the future

All of us will likely have to face the death of a close family member at some time in our lives. Worrying about how to cover the funeral costs just adds to the pain and grief we're experiencing. No one likes to think about their own mortality. But concern for your family leads you to wonder how they would manage expenses after you pass away. That's where life insurance from Foresters Financial™ can help by providing some of the resources to protect your family and finances.

According to the National Funeral Directors Association¹, the national median cost of an adult funeral with viewing, burial, and vault in 2023 was \$9,995. This cost does not include the cemetery plot, monument, flowers, obituary or other cash expenses, which would push the price well over \$10,000.

With Foresters PlanRight whole life insurance, you can help reduce the burden of these costs on your family during an already difficult time.

Foresters PlanRight Life Insurance

Foresters PlanRight offers three plan options – two that can immediately provide a full death benefit amount² and one that can provide a limited death benefit amount² in the first two years. Your answers to questions on the application help guide which plan is available to you.

PlanRight Preferred (with a level death benefit)

The death benefit amount is based on 100% of the face amount and has the lowest premium of the three plans. The maximum face amount is \$35,000, depending on your age at the time of application.

PlanRight Standard (with a level death benefit)

The death benefit amount is based on 100% of the face amount. The maximum face amount is \$20,000, depending on your age at the time of application.

PlanRight Basic (with a graded death benefit)

The death benefit amount in the first two years³ is based on premiums you've paid plus 10% annual interest.⁴ Beginning in the third year, the death benefit amount is based on 100% of the face amount. The maximum face amount is \$15,000, depending on your age at the time of application.

Key features

Guaranteed premiums

Unlike some other expenses in life, PlanRight premiums are level and guaranteed to stay the same as long as you keep the coverage.

Guaranteed benefits

The death benefit amount is also guaranteed as long as premiums are paid and your PlanRight coverage will never be canceled because of changes in your health while your coverage is in effect. The death benefit amount also generally provides an income tax-free death benefit.⁵

Guaranteed cash values

PlanRight has guaranteed cash values, which allows you to potentially borrow against as a loan.⁶

For added value

Foresters automatically includes up to three riders with your base coverage, with no additional premium.

- Accelerated Death Benefit Rider (for Terminal Illness)⁷ may allow the owner to accelerate a portion of the death benefit and receive a payment if the insured is diagnosed with a terminal illness.
- Common Carrier Accidental Death Rider may provide an additional benefit if death is due to an accident or accidental injury that happens while riding as a fare-paying passenger on a common carrier such as a plane, bus or train.
- Family Health Benefit Rider may provide a payment to help cover some family health expenses (such as an ambulance ride) resulting from certain natural disasters.

For added protection

For additional premium, PlanRight Preferred offers an Accidental Death Rider, which can pay an additional benefit in the event of an accidental death.

Applying is simple

Applying for PlanRight is simple and convenient. Complete an easy-to-understand application and you could be eligible for life insurance coverage. Also because PlanRight is non-medical, there are no paramedical exams or fluid collection required. Your insurability depends on answers to medical and other application questions and underwriting searches and review.

Remember, in most cases, the younger and healthier you are, the lower your insurance premiums. Helping to provide for both today's peace of mind and tomorrow's possibilities, Foresters PlanRight gives you many good reasons to apply.

Ask your insurance representative how Foresters PlanRight can work for you.

² Unearned premium will be added and debt subtracted from the applicable amount in calculating the death benefit. Debt includes each outstanding certificate loan amount and unpaid premium owed.

³ In the event of accidental death during the first two years, the death benefit amount is based on 100% of the face amount.

⁴ Interest is compounded annually and is accrued on a daily basis from the certificate issued date to the date of death.

⁵ Foresters, and their employees and life insurance representatives, do not provide, on Foresters behalf, financial, estate, legal or tax advice.

⁶ Loans can be taken if the certificate is in effect and has a positive cash surrender value. Loans will reduce the death benefit and cash values and may affect how long the certificate is in-force. Interest is charged daily at the contractual loan rates. Death benefit payable is net of the outstanding certificate loan amount(s) (note loan amount includes accrued interest). If, at any time, the loan amount exceeds the cash value at that time, then the certificate will terminate. Loans may be considered a reportable tax event. You should consider consulting your tax advisor for details on your specific situation.

⁷ The payment of the Accelerated Death Benefit, due to diagnosis of a terminal illness, may be significantly less than the acceleration amount if there is an outstanding loan or unpaid premiums. Payment will decrease certificate values and benefits. Receipt of the accelerated death benefits may affect eligibility for public assistance programs and may be taxable. Receipt of the accelerated death benefits may affect eligibility for public assistance programs. Receipt of the accelerated death benefits may be taxable.
